DUELS OF ACROBATIC DANCERS

Since 2012

POLE

About

- + Pole Battle League is a series of competitions in pole dance & fitness, where a pair of acrobatic dancers fight each other for the best position in the national and international rankings.
- + The competition was created in the Czech Republic in 2012 and since then, this sports event has spread to several European countries.

Goals

- + To support the pole sport as such and to create a healthy competitive environment that motivates athletes to reach better performance.
- + Great motivation for beginner performers as well as very professional athletes (categories: Amateurs, Professionals and Elite).

Two attractive concepts of the competition

Pole Battle League

- + Serious sporty competition with official rules
- + Usually takes place at official sport/cultural venues
- + Push pole sport among official sports
- + Results create a chart of the best athletes

Pole Battle Freestyle

- + More for show rather than competition
- + Jury is the audience
- + More dynamic, more adrenalin

International Concept

Idea

- + All countries respect one set rules
- + All countries respect graphic guidelines
- + All countries share results, photos, videos
- + National and International competitions & charts
- + Athletes can compete and gain points in all countries
- + The best athletes of each country will compete in an International Pole Battle Championship at the end of the year
